Share Your Input on Recreation in Tahoe City

Tahoe City Public Utility District has completed a preliminary planning and feasibility study for the construction of a new active recreation facility at the Tahoe City Community Center (TCCC) property, located at 401 West Lake Boulevard in Tahoe City.

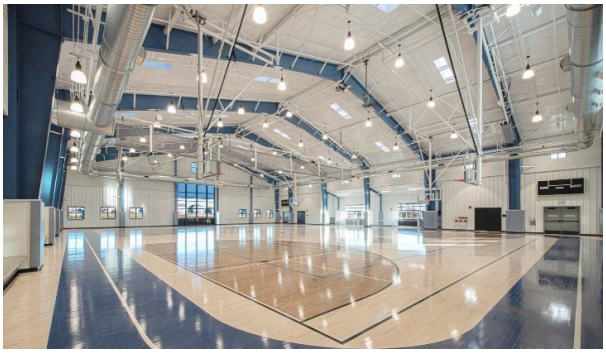

This survey is intended to gauge the level of community interest and support for funding new recreation facilities and will be used to help the TCPUD Board determine next steps in the Tahoe City Community Center Planning and Feasibility Study Project.

This feasibility study considered 3 potential recreation facility concepts:

- An indoor gymnasium facility
- An indoor aquatics facility
- A combined indoor aquatics and gymnasium facility.

Construction of a new facility would rely on a mix of existing TCPUD general fund revenues and a new parcel tax measure paid by property owners.

Recreation Facility Concepts

Indoor Gymnasium Facility

The indoor gymnasium facility would include multi-purpose sports courts (basketball, volleyball, pickleball), classrooms, locker rooms, fitness space, and administrative offices.

Construction of this facility would require a new parcel tax, estimated at $196 per year, per parcel.

If the election were held today, would you vote yes or no for this new tax measure? Please select one option below:

Definitely Yes, Probably Yes, Probably No, Definitely No

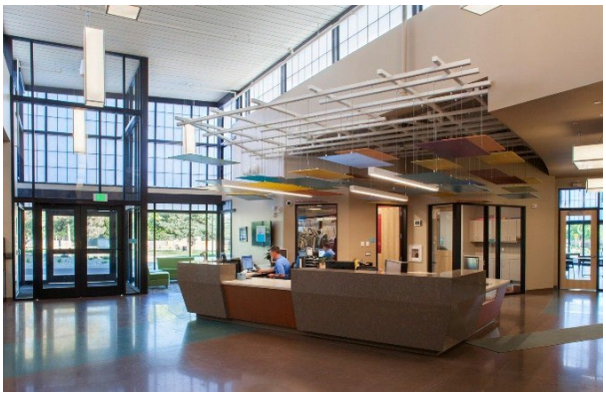

Indoor Aquatic Facility

The indoor aquatics facility would include a 6-lane lap pool (5-foot depth) and a leisure pool with zero-entry access, water features, a current channel, and a slide (modeled after the Truckee-Donner Community Pool).

Construction of this facility would require a new parcel tax, estimated at $351 per year, per parcel.

If the election were held today, would you vote yes or no for this new tax measure? Please select one option below:

Definitely Yes, Probably Yes, Probably No, Definitely No

Combined Indoor Gymnasium/Aquatic Facility

The combined facility would include a leisure pool with zero-entry access, water features, a current channel, and a slide, along with a gymnasium, multi-purpose sports courts, classrooms, locker rooms, fitness space, and administrative offices.

Construction of this facility would require a new parcel tax, estimated at $424 per year, per parcel.

If the election were held today, would you vote yes or no for this new tax measure? Please select one option below:

Definitely Yes, Probably Yes, Probably No, Definitely No

Which facility would you most prefer?

Indoor Gymnasium Facility, Indoor Aquatic Facility, Combined Gymnasium/Aquatic Facility, None of these

---

How important is constructing a new active recreation facility in the Tahoe City community?

Very Important, Somewhat important, Not very important, Not important at all

---

If you do not support a new tax measure for any of the proposed recreation facilities, is there a particular reason why? Select all that apply.

- Not applicable - I support one or more of the proposed facility concepts
- Taxes are already too high
- Facility not needed/household would not use
- I need more information first
- Other, higher priorities in the community
- Not sure/other reasons

If you support a new parcel tax for any of the new recreation facilities under consideration, would you be willing to actively encourage your friends and neighbors to vote yes on a new tax?

Yes, No, Need more information, I do not support a new parcel tax

If you support a parcel tax for any of the active recreation concepts, would you participate in a citizen-led initiative to get a funding measure on a ballot?

Yes, No, Unsure, I do not support a new parcel tax

Please share any additional comments you may have about these proposed facility concepts:

Are you registered to vote within the TCPUD service area?

Yes, No, Unsure

Do you pay property tax on a property within the TCPUD Service Area?

Yes, No, Unsure

Within the TCPUD Service Area, which best describes you?

Property Owner - Primary Residence, Property Owner - Second Home, Renter, Business Owner, Other

---

How did you hear about this survey?

Website, TCPUD E-News, Community Events, Through Recreation Programming/Parks Facilities, Social Media, Other
